

AMENDMENTS TO THE SPECIFICATION

In the Specification

Please substitute the attached Substitute Specification, marked "Clean Copy" for the Specification currently on file. A "Marked-Up Copy" showing all the changes made is also attached hereto (deleted matter is shown by strikethrough or double brackets and added matter is shown by underlining). The Substitute Specification includes no new matter.

In the Abstract

Please substitute the following amended Abstract for the Abstract as currently pending (deleted matter is shown by strikethrough and added matter is shown by underlining):

Abstract

~~This device may be held~~ A device for printing an image on a large surface and that may be held and moved manually and is able to determine its position and direction on a surface. The device uses this knowledge to determine which colors are to be applied ~~by it~~ on the surface. This determination is accomplished by matching the determined coordinates and an image stored in a memory of the ~~apparatus~~ device. The stored image may then be superimposed to the surface to be painted.
